

EXQUISITE

PECB

BEYOND RECOGNITION

Master the implementation and management of Information Security Management Systems (ISMS) based on ISO/IEC 27001

Why Exquisite?

Exquisite is the authorized partner of PECB.

Why should you attend?

Information security threats and attacks increase and improve constantly. The best form of defense against them is the proper implementation and management of information security controls and best practices. Information security is also a key expectation and requirement of customers, legislators, and other interested parties.

This training course is designed to prepare participants in implementing an information security management system based on ISO/IEC 27001. It aims to provide a comprehensive understanding of the best practices of an ISMS and a framework for its continual management and improvement.

Who should attend?

- Project managers and consultants involved in and concerned with the implementation of an ISMS
- Expert advisors seeking to master the implementation of an ISMS
- Individuals responsible for ensuring conformity to information security (ISMS) requirements within an organization
- Members of an ISMS implementation team

Learning objectives

- ✚ Gain a comprehensive understanding of the concepts, approaches, methods, and techniques used for the implementation and effective management of an ISMS
- ✚ Acknowledge the correlation between ISO/IEC 27001, ISO/IEC 27002, and other standards and regulatory frameworks
- ✚ Understand the operation of an information security management system (ISMS) and its processes based on ISO/IEC 27001
- ✚ Learn how to interpret and implement the requirements of ISO/IEC 27001 in the specific context of an organization
- ✚ Acquire the necessary knowledge to support an organization in effectively planning, implementing, managing, monitoring, and maintaining an ISMS
